Amazon Scraper Crack+

Screen Scraper for Amazon offers you one of the simplest and most straightforward applications to get the job done. A day at the library may yield more than 20,000 articles -a daunting and often frustrating task -if you have to sort through them all in search of items you want and need. Amazon Scraper takes care of that problem. It lets you find exactly what you want at Amazon, and the application does so in a time-saving and convenient manner. It doesn't take much effort to set up and it runs almost instantly. You simply point Amazon Scraper at the Amazon URL of your choice, and a Scrape the Amazon page for a complete list of items. Amazon Scraper then collects these items and neatly sorts them into categories so that you know what you want right up front. The software is extremely easy to use, and it can retrieve large amounts of data from Amazon. You don't need to become a specialist to leverage the power of Amazon Scraper. The Scrape Results dialog only contains a list of Categories and a list of Items. It's simply a matter of selecting the one you need and setting the Scrape Parameters accordingly. The software has been optimized for use with Amazon EC2, but it will work with any Amazon site. Screen Scraper has many features: An auto-complete feature provides a list of possible categories that the screen has filled in so you don't have to select them all individually. A filter feature lets you search by category, price, reviews, or title, and the on-screen list is sorted by the most popular categories. Filtering results is very efficient. Amazon Scraper is easy to use. In the main window, you set your choices in Parameters. Then you click the Scrape button and go on with your work. A full list of retrieved items appears in the Results window. You can view a summary of any category, for instance. You can also see the number of items available in that category and the total number of items in the category. The software is also designed to work with RSS, Yahoo, and Google search feeds, so you can choose whichever site you want to Scrape. The software allows you to save the Scrape Results as HTML, Java, PDF, RTF and XML, and CSV files. You can choose how you want to see the results -whether you want them displayed in the form of a table, or in a tabbed interface. Free Amazon Scraper is very easy to use. The software includes plenty

What's New in the?
